Program by Opening Minds – Igniting Purpose (OMIP) www.opening-minds.com

- ✓ For young leaders (15-25 years). This 3 night 3 day, overnight experience provides participants with interactive small and large group experiences, along with outdoor high and low ropes team building activities. Each participant also practices reflective goal setting and planning techniques for personal action.
- ✓ Students with the Capacity to Influence Others have the opportunity to interact with and learn from other student leaders, leaving with an increased awareness of the capacities needed to effectively create, develop and implement community-based projects, setting goals and building upon shared leadership and collaboration. This learning opportunity may also be considered a training supplement to an organization's own leadership training.

The experience builds upon individual capacities, resources and skills:

- ✓ communication for empowering self and others,
- ✓ resilience - flexibility & adaptability,
- ✓ personal initiative & self-direction with reflection,
- ✓ social & intercultural interaction, including team building,
- ✓ productivity & accountability, and
- ✓ leadership with responsibility through awareness, respect and influence, so that students may identify goals for personal growth and purposeful action at home, at work and in their communities, celebrating human rights.

About Opening Minds & Concepts Consulting

All people will be treated with dignity and respect.

Opening Minds, LLC is an educational consulting company with experience in human rights awareness, diversity training, leadership development and communication and workshop services. Opening Minds is committed to EMPOWERMENT through honest, clear communication, and personal interaction marked by thoughtful responsibility, developing leaders for today, as well as the future. www.opening-minds.com

Imagination ∞ Balance ∞ Clarity

Concepts Consulting creates environments for organizations and individuals to learn, reflect, and make decisions by encouraging imaginative thinking and collaboration, and supporting the development of the whole person. We use the arts and participatory processes as a means to see and know oneself and others, igniting a sense of purpose that inspires personal action. www.conceptsconsultinggroup.com

Deanie Wlodek, M.Ed.
Dr. Melanie Ohm

Deanie and Melanie design active, fun, intentional and reflective experiences with the empowerment of young leaders in mind, and look forward to sharing a mind-opening, purpose-igniting few days with you.
